TAX PARTNER PROGRAM FREQUENTLY ASKED QUESTIONS

What is the \$4,800 annual fee for?

1.This is for downloading the new tax software every year to the laptop. A new license will need to be purchased per platform installed. INTUIT Pro-series Tax Software charges our account, and we charge you monthly. Licensing Fees also cover the cost of your DROPBOX Business License, E Signature Software and Dedicated Live Customer Support to assist you with questions regarding Tax Returns to be filed along with weekly continued education refresher courses live on zoom 2 times per week.

a. How do you pay for it?

Monthly at \$400 Per Month via direct debit from bank account of choice or in full in one payment.

1b. What states are the licenses valid for?

You're Licensing (IRS PTIN and NYPTIN) Is Valid For All 50 States :)

2 a. Are you required to take CEU (Continuing Education Courses) to maintain the license?

Yes, every year you are required to take at least 20 hours minimum of Federal and NY online courses to reactivate and renew your licenses.

2 b. Are you required to register to the state & pay a fee?

Yes, by law this must be done for NY State and its \$100 annually to renew your NYPTIN.

3.Do you need to set up a business/EIN or can you do this independently?

You will not need to set up a business nor obtain an EIN. You will be paid as an independent contractor licensed by the IRS with a PTIN and New York State with a NYPTIN and will be paid by 1099 at the end of the year for the total sum minus all fees paid to TRUTHFUL

4. Do you get a 1099 from the IRS?

The company TRUTHFUL TAXES will be providing a 1099NEC for all the income made minus any splits paid to the company.

TAX PARTNER PROGRAM FREQUENTLY ASKED QUESTIONS

5. How is the company paid the royalty fees?

TRUTHFUL TAXES will collect all fees then deposit your net fees after all company fees collected and direct deposited weekly.

6. Is it safe to assume after every year, you will have to pay for the software again (\$4,800)?

Every year the software needs to be renewed and purchased so if you do this for 30 years that's 30 charges of \$4,800 saying the software cost will never go up which we highly doubt.

7. Are all the fees associated with the Tax Partnership Program Tax Deductible?

All company fees and cost for the course and software purchase will all be completely written off as they are business expenses associated with making your money, so guess what..... "You Actually Never Paid" we will be writing the cost off on your 1099 schedule C for you. :)

8. What does the \$3,500 set up fee cover?

The set-up fees covers all cost associated with getting the individual prepared and all material needed to become a licensed tax preparer with the IRS and New York State. A laptop will be included as well as mouse and basic marketing material business cards, personal email domain (yourname)@truthfultaxes.com etc.

9. Will you be providing the clients as well?

No, all clients will need to be obtained by the tax partner themselves. We will assist as much as possible with helping you get clients by listing your professional tax profile on our website and social media pages so that you can obtain clients organically through our influence on social media and the world wide web.
